

# **I Want Ethical Products.**

**I stopped by today to let you know that I want to know more about the clothes I buy. I would like to receive more information from your company about whether or not the clothes you sell are manufactured ethically—under good working conditions, with good pay for workers.**

**I am sure that many people would love to know the ethics of how your products are manufactured, and would feel better about their purchases know that your company really cares about how the things you sell are made and distributed.**

**Thank you,**
